ABOUT ME

Flutter Mobile Developer experienced in building and maintaining production-grade ERP, HR, and logistics applications.

Expert in Clean Architecture, Bloc/Cubit, and REST API integration using Dio.

Passionate about creating scalable, maintainable systems with smooth and high-quality user experiences.

Worked on apps published on App Store and Google Play.

EDUCATION AND TRAINING

26/02/2019 – 24/01/2024 Damascus, Syria

BACHELOR OF INFORMATION TECHNOLOGY Al Sham Private University

Software development, programming fundamentals, object-oriented programming, database design, web development, mobile application development, computer networks, operating systems, software engineering, systems analysis and design, and problem-solving skills.

WORK EXPERIENCE

FLUTTER MOBILE DEVELOPER – ADVANCED ACHIEVEMENT COMPANY FOR INFORMATION TECHNOLOGY –

01/11/2025 – Current – BAGHDAD, IRAQ

Link : <https://www.linkedin.com/company/advance-achievement-ltd>

- Develop and maintain production-grade Flutter applications for ERP systems (HR & Operations), supporting real business workflows.
- Implement scalable architectures using Clean Architecture and Bloc/Cubit for maintainable code.
- Integrate REST APIs using Dio, including error handling, interceptors, and token management.
- Build reusable UI components with consistent theming and localization (Arabic/English).
- Collaborate with backend and QA teams to deliver stable releases and fix production issues.
- Troubleshoot and resolve production issues by analyzing logs and improving application stability.

PROJECTS

26/01/2025 – CURRENT

Noon Express

- Developed and maintained a multi-role logistics mobile application (Merchant, Driver, Hub, Delivery).
- Implemented scalable features using Clean Architecture and Bloc/Cubit.
- Integrated REST APIs using Dio with centralized error handling and retry mechanisms.
- Built reusable UI components and a consistent theming system.
- Supported production releases on App Store and Google Play, improving app stability and performance.

01/11/2025 – CURRENT

Attendance Mobile App (HR/Attendance)

- Developed an HR/Attendance mobile application with employee listing and pagination.
- Implemented camera workflows and biometric onboarding (face recognition & liveness detection).
- Applied Clean Architecture with Bloc/Cubit and Repository pattern.
- Integrated REST APIs using Dio with structured error handling.
- Built multilingual UI using easy_localization and consistent theming.

Schindler

- Developed a mobile application for managing and monitoring elevators.
- Enabled employees to detect issues, inspect elevators, and submit reports.
- Designed and managed Firebase backend (Firestore & Authentication).

Zaya Store

- Built a product display mobile application using Flutter.
- Integrated external APIs to fetch and display product data.
- Implemented features such as product catalog and favorites list.
- Delivered a smooth and user-friendly shopping experience.

SKILLS

Core Skills

Mobile App Development | Flutter | Dart | Clean Architecture

State Management

Bloc | Cubit | GetX

Backend & APIs

REST APIs | Dio (HTTP) | API Integration | JSON | Firebase

Tools & Soft Skills

Git | GitHub | Problem Solving | Teamwork | Communication

LANGUAGE SKILLS

Mother tongue(s): **ARABIC**

Other language(s): **ENGLISH**
